SUSTAINABLE DEVELOPMENT

Water Producer Program in Minas Gerais

Recently, the federal government, through the National Water and Basic Sanitation Agency (ANA), signed a Technical Cooperation Agreement with the state of Minas Gerais to strengthen the Water Producer Program (PPA) in the state.

The Water Producer Program is an action aimed at promoting the revitalization of river basins, through the regularization of rural properties, the recovery of degraded areas, the restoration and conservation of vegetation cover with a view to improving water production and water security. in the state. The PPA relies on the direct and coordinated action of ANA, Semad, Igam and IEF.

ANA

AGÊNCIA NACIONAL DE ÁGUAS

- ✓ It aims to support the revitalization of river basins through the development of plant and soil conservation projects to improve water resources;
- ✓ Encourages the adoption of economic instruments such as Payment for Environmental Services;
- ✓ Stimulates sustainable production and agroforestry practices that can mitigate the effects of climate change;
- ✓ More than 25 Projects supported in MG, 17 of which already have PSA arrangements;
- ✓ It finances plant recovery in strategic areas, such as those of permanent protection and around springs, helping with the production of ecosystem services essential for Sustainability.
