

# SUCCESS CASES OF THE STATE OF MINAS GERAIS/BRAZIL

## SUSTAINABLE PROJECTS

### Clima+ Project: Accelerating climate compliance in the 853 municipalities of Minas Gerais

Objective: Promote local climate compliance and the implementation of measures, actions and programs to mitigate and adapt to climate change in municipalities, supporting these territories to advance their climate agendas and transition to a low-carbon economy with sustainable development.

Object: Hiring a company to carry out the Project in up to 5 municipalities in Minas Gerais, with a population between 200 and 500 thousand inhabitants, with the development of pre-established products necessary to offer municipal climate compliance status, namely:

- Climate Governance;

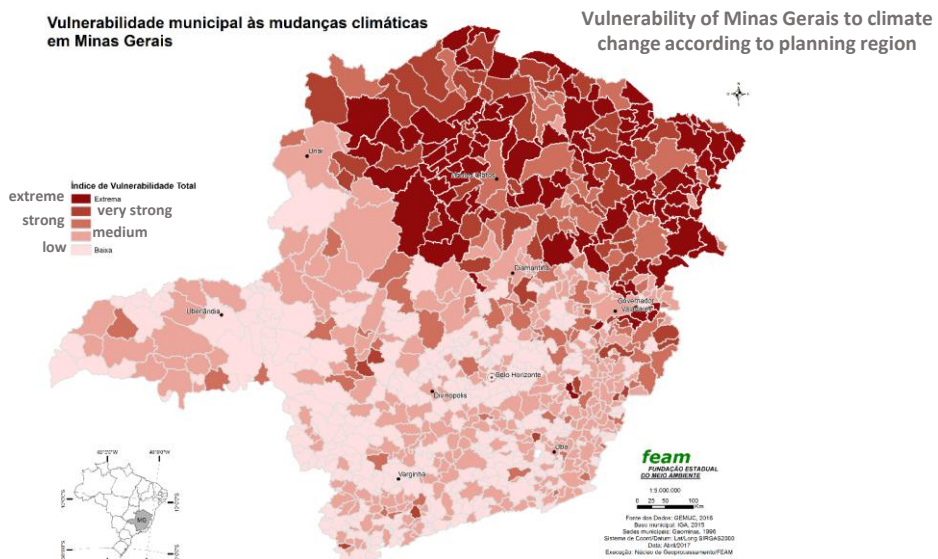

- Greenhouse Gas Emissions Inventory; Climate Risk and Vulnerability Analysis (ARVC);

- Climate Action Plan (PAC);

- Climate Regulations.

The contracting of consultancy services is estimated at R\$ 4,230,000.00
